HUB Wireless Receiver

Smart-Device Enabled Winch Controller

Control a WARN AXON, VRX, ProVantage, or Vantage powersports winch with a Bluetooth-enabled smart device

WIRELESS RECEIVER

This state-of-the-art wireless control system allows users to operate their powersports winch using the Bluetooth connection on their smart device. The IP68 waterproof HUB Wireless Receiver connects to the winch, and then our free custom-developed app for either iOS or Android communicates with the receiver via Bluetooth signal. The smart device will be able to operate the winch from up to 100' away and monitor the vehicle's battery voltage. AXON versions will also let users observe the winch's load and winch's motor temperature so they know exactly what's going on during a recovery.

- Control a WARN AXON, VRX, ProVantage, and Vantage winch wirelessly from up to 100' away using the Bluetooth connection on a smart device and our free app
- Easy plug-and-play setup
- When paired, HUB lets users control their winch and provides voltage info. AXON winches also display load and motor temperature information
- VRX, Provantage, and Vantage versions are wired directly to the winch's contactor
- Mounts to any tube or flat surface with built-in mounting features and includes zip ties
- Multi-color LED indicates receiver status
- Rugged construction features fully potted and IP68 sealed electronics
- VRX, Provantage, and Vantage versions include 6' wiring hardness allowing receiver to be mounted up under the hood for security

103940 HUB Recevier for AXON winches
